- Admin Dashboard
- Role-Based Access Control
- Reporting and Analytics
- Notifications and Alerts
- API Integration
- Mobile Responsive UI
- Cloud Deployment
- Database Management
- Security and Backup

Target Users

- Admin
- Managers
- Employees
- Customers / Students / Clients

Technology Stack

- Frontend: React / Streamlit
- Backend: FastAPI / Django / Node.js
- Database: MySQL / PostgreSQL / Oracle
- AI Integration: LangChain + HuggingFace
- Deployment: AWS / Azure / Render

Timeline

Phase 1: Requirement Analysis

Phase 2: UI/UX Design

Phase 3: Development

Phase 4: Testing

Phase 5: Deployment and Support

Deliverables

- Complete Source Code
- Documentation
- Admin Panel
- User Training
- Deployment Support

Budget Estimate

Basic System: \$3,000 - \$5,000
Advanced System: \$8,000 - \$15,000
Enterprise System: Custom Pricing

Common Proposal Requirement Matrix

Common Requirement	Used in Most Proposals
Authentication	Yes
Dashboard	Yes
Reports	Yes
Mobile Support	Yes
Database	Yes
Cloud Deployment	Yes
Security	Yes
